Karla Payne, 612-756-2059, klpcarousel@gmail.com

The Program

The goal of this partnership between the Pheasants Forever Chapter and Trout Unlimited is to offer Twin Cities area youth the opportunity to learn how habitat is the key component of many of our outdoor activities, and in order to hike, fish, hunt and camp, we must become stewards of the land.

This camp is for:

- Individuals who want to get outdoors and have fun while learning new skills like fishing, hiking, canoeing, shooting, etc.
- Individuals with an interest in exploring future careers in conservation.

The Facility

Eagle Bluff Environmental Learning Center

Eagle Bluff Environmental Learning Center is located in rural southeastern Minnesota, where it was established as the Forest Resource Center, a private, non-profit, member supported educational institution in 1978. The area represents a unique ecosystem where hardwood forests coexist with productive farmland. The karst geology of the region features clear-running trout streams, soaring limestone bluffs, underground caves and rivers, and an abundance of flora and fauna. Eagle Bluff consists of 80 acres surrounded by 1,000 acres of state managed forest. The region is also notably unique as the site of pre-historic Oneota Indian settlements dating from 600-1200 AD. One of these settlements in the Mississippi Valley adjoins Eagle Bluff's land. The center offers a diverse array of environmental learning experiences for people of all ages.

For more information visit www.eagle-bluff.org

The Experience

Please check your appropriate level of strength for each activity (No experience necessary).

	No Experience	Beginner	Intermediate	Experienced
Canoeing				
Archery				
Fly Tying				
Fishing - Reel
